A	Vocal Monitor	Kick, Snare, Vocal
B	Other Moitors	Kick, Snare, Bass, Guitar

Notes
<p>Fluff is a one man band with a boombox for a drummer. Boombox tracks consist of snare and kick hits with occasional synth across both channels. All levels are limited to MP3 volume. (Do not gate the drum tracks as some songs have quiet parts so a gate would eat in at them).</p> <p>Slight reverb / delay on vocals if possible, feel free to dub send to taste haha!</p> <p>Open to using donor backline if necessary, however using own equipment is preferred due to the lack of new variables when troubleshooting on the fly.</p>
